One-Page Principles: Work and Life Summary. Finding the truth is the most important thing possible to make the best possible decisions you can.

Summary + PDF - Principles: Life and Work, by Ray Dalio

The theory of justification is the part of epistemology that attempts to understand the justification of propositions and beliefs. Epistemologists are concerned with various epistemic features of belief, which include the ideas of justification, warrant, rationality, and probability.

Rationalism - Wikipedia

In a fraction, the number of equal parts being described is the numerator (from Latin numerus, "counter" or "numberer"), and the type or variety of the parts is the denominator (from Latin denominatio, "thing that names or designates"). As an example, the fraction $\frac{8}{5}$ amounts to eight parts, each of which is of the type named "fifth".

Box and Cox (1964) developed the transformation. Estimation of any Box-Cox parameters is by maximum likelihood. Box and Cox (1964) offered an example in which the data had the form of survival times but the underlying biological structure was of hazard rates, and the transformation identified this.
