Abstract. In this theoretical paper, motives for CSR are considered. An underlying assumption is that the commercial imperative is not the sole driver of CSR decision-making in private sector companies, but that the formal adoption and implementation of CSR by corporations could be associated with the changing personal values of individual ...

Georgism, also called geoism and single tax (archaic), is an economic philosophy holding that, while people

should own the value they produce themselves, economic value derived from land (often including natural resources and natural opportunities) should belong equally to all members of society.
