Design of steel-to-concrete joints, Design manual I Although all care has been taken to ensure the integrity and quality of this publication and the information herein, no liability is assumed by the project partners and the publisher for any damage to property or persons as a result of the use of this publication

Design of Steel-to-Concrete Joints Design Manual II

The steel plate with cast-in Nelson-headed studs consists of one or more headed studs which are welded-on to a steel plate. The headed studs consist of steel with a diameter of the shaft of 10, 13, 16, 19, 22 and 25 mm. At the one end a head is formed by upsetting. The other end is prepared for drawn arc stud welding with ceramic ferrule or shielding gas (method 783 according to EN ISO 4063 ...
