The International Foundation Programme in Engineering will introduce you to the key concepts and principles of engineering for undergraduate study.

### **International Foundation Programme - Engineering**

The Foundation Year provides an introduction to mathematics, mechanics, computer programming, electricity and electronics, and engineering principles and provides the skills required to study successfully for an undergraduate degree.

### **Engineering/Physics/Maths/Geophysics Foundation Year**

Engineering ethics is the field of system of moral principles that apply to the practice of engineering. The field examines and sets the obligations by engineers to society, to their clients, and to the profession.
