samuelson economics answers 19th pdf
Box and Cox (1964) developed the transformation. Estimation of any Box-Cox parameters is by maximum likelihood. Box and Cox (1964) offered an example in which the data had the form of survival times but the underlying biological structure was of hazard rates, and the transformation identified this.

Glossary of research economics - econterms
In this article we will discuss about the role of the government in a market economy. The classical economists like Adam Smith, J.S. Say and other advocated the doctrine of laissez faire which means non- intervention of the government in economic matters.
